Brandon Lamont Baker- Master of CSS, built the clientside

Malik Quinn Depasse - Master of Routing, built the clientside

Hunter Scott Harris - Master of back-end, built the java backend

Jude Michael Slovik - Master of Chat, made an instant chat

Ryan Patrick Griffith - said some helpful things

We all worked on every part of the project with few things made by just one person.

Here are our branches with all of our changes

[https://github.com/ToastyVal/Blog-app/commits/test-branch(do-not-push-to-here-yet)](https://github.com/ToastyVal/Blog-app/commits/test-branch)

On behalf of the excellent team red Hufflepuff, we thank you for teaching us and all of the dad jokes. We learned a great deal and have grown as developers. Never forget to use a VPN!
